Forest Ecology and Management

Contents of *Forest Ecology and Management*, Volume 119

VOL. 119, NOS. 1–3 **28 JUNE 1999**

Patterns of early cohort development following shelterwood cutting in three Adirondack northern hardwood stands
D.G. Ray, R.D. Nyland and R.D. Yanai (Syracuse, NY, USA) 1
Above ground biomass and nutrient distribution in a limed and fertilized norway spruce (*picea abies*) plantation. Part I. Nutrient concentrations
M. Ingerslev (Hoersholm, Denmark) 13
Above ground biomass and nutrient distribution in a limed and fertilized Norway spruce (*Picea abies*) plantation. Part II. Accumulation of biomass and nutrients
M. Ingerslev (Hoersholm, Denmark) and L. Hallbäcken (Uppsala, Sweden) 21
Biomass, nutrient content, litterfall and nutrient return to the soil in Mediterranean oak forests
M. Rapp (Montpellier Cedex, France), I. Santa Regina, M. Rico and H.A. Gallego (Salamanca, Spain) 39
The effect of water and nutrient availability on the productivity of Norway spruce in northern and southern Sweden
J. Bergh, S. Linder (Uppsala, Sweden), T. Lundmark (Vindeln, Sweden) and B. Elfving (Umeå, Sweden) 51
Soil responses to land-use change – a study in south-west Ireland
D.A. Cunningham, E.P. Farrell and J.F. Collins (Dublin, Ireland) 63
Influence of tree health on ground flora in the Chiltern Beechwoods, England
K.A. Ling and M.R. Ashmore (London, UK) 77
Carbon dioxide limitation of the photosynthesis of *Prunus avium* L. seedlings inside an unventilated treeshelter
C. Dupraz and J.-E. Bergez (Montpellier, France) 89
Fine-root biomass and necromass in limed and fertilized Norway spruce (*Picea abies* (L.) Karst.) stands
H.-S. Helmisaari (Vantaa, Finland) and L. Hallbäcken (Uppsala, Sweden) 99
Characteristics and management potential of some indigenous firewood species in Malawi
P.G. Abbot (Aberdeen, UK) and J.D. Lowore (Zomba, Malawi) 111
The effect of habitat structure on carabid communities during the regeneration of a native Scottish forest
T.C. Ings and S.E. Hartley (Aberdeenshire, UK) 123
Bridging a gap between a gap model and a physiological model for calculating the effect of temperature on forest growth under boreal conditions
A. Talkkari (Hirvas, Finland), S. Kellomäki and H. Peltola (Joensuu, Finland) 137
Spatial yield model for *Shorea robusta* in Nepal
O. Rautiainen (Kuopio, Finland) 151
Field aspects of line intersect sampling for assessing coarse woody debris
A. Ringvall and G. Ståhl (Umeå, Sweden) 163
Modelling the relationship between tree diameters and heights using S_{BB} distribution
V.P. Tewari (Jodhpur, India) and K.V. Gadow (Goettingen, Germany) 171
A three-segmented model for the vertical distribution of annual ring area. Application to *Cedrus atlantica* Manetti
F. Courbet (Avignon, France) 177
Biomass, net primary production and impact of bamboo plantation on soil redevelopment in a dry tropical region
A.N. Singh and J.S. Singh (Varanasi, India) 195
Growth stimulation of *Acacia mangium* Willd by *Pisolithus* sp. in some Senegalese soils
R. Duponnois and A.M. Bâ (Dakar, Senegal) 209
Seasonal and successional understory vascular plant diversity in second-growth hardwood clearcuts of western Maryland, USA
T.E. Yorks (Syracuse, NY, USA) and S. Dabydeen (Lincoln, NE, USA) 217

The structure of ancient native pinewoods and other woodlands in the Highlands of Scotland
R.W. Summers, R.A. Mavor, A.M. MacLennan (Inverness, UK) and G.W. Rebecca (Scotland, UK) 231
Patterns of nitrogen availability within a forested watershed exhibiting symptoms of nitrogen saturation
W.T. Peterjohn, C.J. Foster, M.J. Christ (Morgantown, WV, USA) and M.B. Adams (Parsons, WV, USA) 247
